Our winter goalkeeper training series has been selling out consistently for the last six years! We employ PROFESSIONAL goalkeepers and coaches from PROFESSIONAL soccer teams to work with your children! We keep our player to trainer ratio the lowest among all local GK training companies. Keepers are grouped by age and ability and are taught the skills necessary to be competitive and successful. We welcome input from all of our parents and participants so we can make our training as individualized as possible. Goalkeepers ages 6 and up are welcome. Group discounts available. Certain clubs also receive LIGKT discounts.
